**Subject:** Northern Pass

Dear Ms. Monroe,

I am a homeowner in Tamworth, NH, and am unable to get to any of the meetings you are holding. I feel compelled to bring my thoughts to your attention.

I find it difficult to believe that the regulations for the conservation areas effected would allow for cutting, digging and destruction of trees, land and the beautiful views of the mountains. I also do not believe this construction would help beef up the economy, nor will it make a significant difference in anyone's electric bill. Construction workers buying breakfast, lunch, dinner and drinks will not a good economy make, and the savings of less than \$20.00 per year on electric bills just is not worth the destruction of conserved lands.

I am in shock that this project is still alive and kicking, as I have donated hundreds of dollars over the past two years to help get it stopped. It is truly like a bad penny, it keeps coming up. Please help stop this project once and for all, it just does not belong in the great State of New Hampshire.

Thank you for your time and consideration,

Pamela Benjamin  
Tamworth NH
