Position on Northern Pass Opposed

I have little to no faith in public servants who normally are on the take to fill their pockets off the backs of the tax payers.

I see no need for Canada a foreign country to supply power to New England now or ever. Something they can turn off.

Northern Pass power is far from green, and I don't care to argue the point with anyone who says otherwise I know rotting wood in a man made lake creates greenhouse gasses for the next Millennia, a simple fact. So while I am opposed I expect it will be rammed thru anyway.

I have only lived here since 1955, and still hike, camp, fish and hunt. NP Has no place or business in NH now or ever.

Regards, William aka Bill Cleveland
