Subject: Great State of NH

It is disgraceful for this great state to even consider a project such as the Northern Pass. The state government and the SEC has the power to stop it. For anyone who has seen the north country of NH, it would be appreciated to make an end to the Northern Pass. I know it's already been heard a million times but it would ruin the multi billion dollar tourism industry and scenic roads that bring so many out of staters into the best state this country has to offer. In the end it is a yes or NO to the Northern Pass and a NO to it would make the decision makers heroes in the eyes of all us NH citizens who love this place too much to watch it be destroyed all for a short increase in economic activity. I am only in high school but I would like to stay in New Hampshire for a long time as long as we can keep a tradition of putting the environment first. The forests are soon to be under attack by the Northern Pass company which would make all committed citizens shameful of the ground underneath there feet, knowing that they could have done something to preserve this wonderful land and didn't.
