Subject: Position on Northern Pass - Opposed!
Date: Thursday, June 1, 2017 1:07:12 PM

Please accept this email as a statement of my position on the Northern Pass. I am OPPOSED! This project is not to the benefit of the north country and our beautiful views, tourism, etc. Please consider more investment in solar, wind and other natural renewable resources that do not hurt our land, views and the north country way. Or, consider burying the lines if they are deemed so necessary. Or use what power line areas already exist. We do not want the Northern Pass!

Thank you.
