### CommenterWords

I just happen to pick up the DOE Impact Statement and what a surprise. The project isn't going to stop in Deerfield is it? It appears that you plan on running lines from Deerfield right down to MA, right behind my house it seems. When were we going to be told this? Why weren't we formally invited to be involved in the process for the Northern Pass Project? Or is the extension one of those things you planned on sneaking in when the project was approved?
