Hello, I am a resident of Canterbury, NH. My property abutts the power lines. I will be directly impacted by Northern Pass. I am 100% opposed to Northern Pass and it should not be allowed to be done. I think the promises that Northern Pass has made to the residents of New Hampshire that somehow it would be a beneficial thing are lies. I think that this process has gotten this far due to politicians simply playing the game and wanting to stay in power. They should be ashamed. Northern Pass should not be allowed to happen.
