Dear Site Evaluation Committee;

Please reject the Northern Pass as it is proposed. Our state is a tourist state, and who would want to come here to see our beautiful mountain and lake scenery dotted with sprawling huge telephone poles and lines. It will certainly hurt our economy, only to help Massachusetts, Rhode Island, or Connecticut. Massachusetts won't even approve wind turbines because they will scar their scenery, but they think it's ok for New Hampshire to do so to benefit them. Let them bury the whole thing. I am 100% opposed to it.

Thank you,
Carol A. Huber
Bristol, NH
