Please consider approving the Northern Pass project. The town of Deerfield voted some 8 years ago to allow then PSNH utility to perform significant upgrades to the Deerfield Substation. This upgrade came at considerable cost, and was in preparation for receiving the additional energy the Northern Pass project will deliver. As a community, I think Deerfield has an obligation to support this, as we've already been collecting the additional tax revenues the upgrade has garnered, and it's too late to 'pull the plug' now.
