SECDocket	2015-06 Northern Pass Transmission - Eversource
CommenterName	Donna Hadley
CommenterCity	Sanbornton
DateReceived	06-25-2017

CommenterWords

The town of Sanbornton will be affected in a negative way, by approving the Northern Pass. The electro magnetic fields (EMFS) emits radiation that cause break downs in DNA strands and eroded immune systems. It also causes headaches, fatigue, anxiety, insomnia, prickling burning skin, rashes, muscle pain and many more severe reactions. Our community disagrees with the transmission of the Northern Pass and will never vote to pass this bill.
