**Subject:** What FOR PROFIT is trying to affect Northern Pass????

Lets investigate this foreign corporation to find out where their money comes from, is a company who wants to keep selling more oil in the US or coal. Maybe they own a good part of the gas pipeline and don't want the competition of a clean hydro power. Do Deerfield residents want a foreign body interfering in our town and state? Somebody needs to question how they came up with \$10,000 in an overnight request so the selectmen wouldn't fire Whitley. Anyone read Whitley's reports? There is something very scary about this behind the scenes organization formed just a year ago and so all the previous signs violate laws in NH.

I have to wonder about this foreign Corp that has sent a glossy No Northern Pass postcard to Deerfield.

Here's what's on file at Secretary of States for Protect The Granite State, Inc.

A glossy 11 X 5 post card orange and white came in mail yesterday saying Deerfield will be directly impacted, etc It was mailed by Protectthe Granite State which is now registered with the Secretary of States Corporate division.

It registered on 10/12/2016 so older signs in Deerfield have no name on them.

its address is 23 Dutton Road, Pelham, NH 03076

Business email

[pmccarron@comcast.net](mailto:pmccarron@comcast.net)

phone 603-635-3017

It says Foreign Corp. A for profit registered in Delaware.
