CommenterWords

I've been following the SEC Northern Pass hearings and I'm astonished that it's gone this far. The Project is clearly not in the long term interest of the state and is meant only to fill the pockets of the corporation and a few politicians.

The disruption and long term degradation this project will create is of great concern to me as a resident of Bridgewater, NH. Please see this project for what it is and don't allow Eversource to take advantage of our state. It's clear from their lack of willingness to consider more burial of the transmission lines that their monetary interest supersedes all other concerns.

Sincerely,
Dennis Capodestria
