### CommenterWords

I am writing to voice my opinion on the Northern Pass coming through Franklin, NH.

I thoroughly support the Northern Pass initiative, especially with Franklin being the recipient of the transfer station and thus revenue to the city. The city of Franklin has all but lost their downtown and many areas have suffered with housing prices failing to recover as the rest of the state has. I believe that this initiative will provide Franklin the boost it needs to become a viable and enviable place to live.
