CommenterWords

I continue the effort to have my voice and opinion heard by the corporate giants who believe their route to profits for themselves and investors supersedes my need for the preservation of the scenic views and pristine landscape of my New Hampshire homestead. The Northern Pass project will directly impact my view from home, during commutes and be frowned upon as well by all my family and friends that are part of my life. I have looked at both sides of the proposal and the very long term impact of "ugly" far outweighs any profitable gains to our state of New Hampshire. PLEASE vote to STOP the Northern Pass.

Respectfully,
Laura Felgate
