### CommenterWords

I live in Easton, NH The prospect of burying the NP down Rt 116 is absurd. This is a small 2 lane road, with houses, barns, brooks and rivers very close to the roadway. There is NO REASON that this project should be approved as it stands.

Why won't Eversource consider burying it along I93? Because of greed! They do not own a right-of-way down I93. Greed is not a good enough reason to disrupt peoples every day lives, businesses incomes or destroy the reason that I live in the North Country.

Please stop this project.
