I've lived in the wonderful state of New Hampshire for over 40 years. It's pristine mountains, boundless lakes, and ocean beauty is what makes it a shining star. Placing the Northern Pass project in its splendid beauty will mar and take away its richness and purity. Our founding fathers would never have approved of dotting the mountains with wire and wood placed along hundreds of miles of eye sore encroachment. put the project somewhere else. I'm sure the executives won't be living next door to the project. I say NO to the Northern Pass Project. Period..
