Protect the Granite State by rejecting the Northern Pass plan to wreck the North Country's last remaining industry: tourism. Our friends and relations who travel from down state and out of state are anxious to escape the highways and power-ways that surround them in the drab communities where they must make their livings. They love what they find here.

Just take a look at rt.s 2 and 3 where they become Main Street in Lancaster, and you will see cars, vans, pick-ups from here there and everywhere hauling bikes, boats, skis, snowmobiles and ATVs. They refuel at our gas stations, eat at our cafes and restaurants, sleep at our inns, B&Bs, hotels and motels, camp grounds and with friends and relations. From Whitefield to the Canadian border, they are our life blood and furthermore we love them. They are our diaspora, and many of them look forward to the day when they can return to live here.

To permit an army of invading 155" metal towers to march down from Canada devastating our beautiful mountains, forests and fields, lakes and streams, will end their visits and their dreams, will drain our economy of its life blood and leave us further impoverished and irreparably damaged.

Mass. and Conn.have other sources of energy available to them. They can take care of their own needs. Your responsibility is to protect our invaluable resource: our environment.

Sincerely, Alice B. Poole
