**Subject:** Northern Pass

We are completely opposed to the Northern Pass project as it now stands. Bury those lines completely. Tourism and hospitality bring huge revenues to a struggling rural economy. Our property values are lower than the rest of the state already. The power lines will disrupt our peaceful quiet way of life, mar the landscape forever, have a negative impact on both tourism and property values and there are health risks from high voltage power lines as well. We can imagine the negative impacts to wildlife and birds as well. One company's greed for even more money should not be allowed to diminish the lives of thousands in northern NH.
