**Subject:** Northern pass

As a resident of New Hampshire I am voicing my concerns about ruining our state with northern pass towers. In a time when we should be focusing on energy conservation why are we party to this project? I am opposed to this project. I am especially opposed to building towers throughout our fine state and capitol city. Please consider what a detrimental effect this will have on our city and state and stop this before it's too late. No amount of temporary job creation is worth it and that's all I ever hear about from northern pass supporters. I don't think most residents will realize until it's too late.

Thank you for listening
