Dear Ms. Monroe -

I am sure you are tired of receiving negative comments expressing opposition to Northern Pass, but I hope that you will consider the reasons behind the opposition to this atrocity of these huge 170' towers defacing this beautiful state! There seems to be many that feel the exact opposite and see Northern Pass as a great opportunity for the state and its citizens. If, indeed, there are any advantages in the way of jobs or whatever Northern Pass is promising, it will be short-lived. And, how can any alleged benefits make up for the loss of the beauty of mountain skylines, the ugly scar that will be seen across once forested areas, the damage to property and wildlife that will not be recovered for many years, if ever?

Many travel to our beautiful state for the fall foliage bringing much needed income to many businesses across the state. Why would they come here after these towers are erected? Much of the foliage will be destroyed and no one cares to travel here to see towers in the fall or any other time of year instead of trees! Then, there are all the other activities that people all across the country come to NH for - skiing, hiking, camping, water sports, scenic drives along the White Mountain roads.... Many tourists who once made NH there vacation destination will likely opt to travel elsewhere.

Please, do not let Northern Pass pass! Do not let these towers be erected! They can easily bury their lines, if they must put power lines through this state. The impact will be much less than those ugly towers!

Thank you for reading this letter and I hope you will see that Northern Pass's towers should not be erected.

Sincerely, Janice Rose
