Subject: STOP NORTHERN PASS

Dear Site Committee,

I am begging you to stop the northern pass. It is harmful to our beautiful landscape. Once done, it can not be undone. This will affect tourism. Our beautiful landscape will be ruined and it will be irreversible. I do not believe rates will go down nor will nh benefit from this power. Our landscape is what makes us beautiful. Do you want to be responsible? Do you want to explain it to all the future generations, that you allowed this, especially when there were alternative ways to avoid it? God help all of you. Please do the right thing. Integrity.

Joanne Bates
