Ms. Monroe,

I moved to the state of New Hampshire 13 years ago from Southern California as it was my intent to move away from the "stress" of traffic, buildings and electrical wires. I called my perfect little New Hampshire...peace, harmony & tranquility. I now find out that this Northern Pass plans on building these unsightly power lines through our gorgeous state. I understand that you want NH citizens to speak now...so I am speaking up. BURY those lines! They are unsightly!!! We most certainly do not need them ruining our state capitol!

Thank you,

Kimberly Komers
