### CommenterWords

I am totally against the Northern Pass and feel that the only thing it is going to do for NH is pad someone's pockets with profits. This is another waste of taxpayers money. The same as NED. What really upsets me is that the Pessamit Innu Tribe is driving down from Quebec ,over 600 miles,to speak on July 20 and you are allowing them 2 minutes. This is unacceptable. This project is causing destruction to their way of life and they get 2 minutes. I and many more people in this state have the right to hear what they have to say and they deserve the right to express their grievances for as long as they need to.
