---

> I am a concerned citizen about the effect this line will have on Concord. I am not against the project but I do believe certain parts should be buried. In Concord it will affect a large population of folks.

>

> I am personally affected given I live in Chichester and have views of downtown Concord and the Steeple Gate Mall and pay a hefty view tax for that. This will be an eyesore to mine and others views. However I am more concerned about how it will affect the aesthetics of Concord and its large population.

>

> I strongly urge burial in Concord and other areas highly affected.
