**Subject:** Oppose northern pass

Hi Pamela

Now that other more sustainable and transparent options are opening up to us here in NH, please deny the northern pass. As a resident of both Webster NH and W. Stewartstown NH and a lover of our one and only north country, while my camp would have no view of the towers, my friends would. Many have lived for generations on that gentle, gorgeous country, loving the mountains and beauty.

For not just these people, however, NP could end that. All of the folks who drive hours and hours to reach that untrammelled haven would find it ruined by these monstrous towers.

National Grid offers more power with less impact. If the power is necessary in Mass and beyond, why not take the option that best spares our state?

Please think about the legacy of your decision on NP. Please save our state from this travesty.

Thank you

Christine Schadler
