Subject: Northern Pass

Dear Ms. Monroe,

I would like express my extreme disapproval of the plans to run the Northern Pass transmission lines though East Concord.

As a homeowner at McKenna's Purchase I feel the lines will be not only be detrimental to the value of my home and the homes around me but will also pose potential health risks. Valuations on property will always rise and fall with the economy but the visual and potential health liabilities involved in the Northern Pass project will most certainly become obstacles in future home sales. Also, while I am sure studies can be shown for and against any potential health risk, I would hope that in this day and age we would err on the side of caution. I ask that you deny passage of the Northern Pass transmission lines through Concord. However, if the lines must be built, bury them.

Sincerely,

John Dennett
