To: Monroe, Pamela

Subject: Northern Pass

Dear Ms. Monroe:

This is to inform the Site Evaluation Committee that I am opposed to Northern Pass's proposed transmission towers through New Hampshire and especially through Concord. I live on the Heights; there is no way I would find those towers acceptable anywhere near me. If the lines must go through they should be buried. Frankly, they should be buried the whole way.

I also think that the SEC should listen very carefully to what our Native American neighbors have to say about this project, and for a lot longer than two minutes.

Sincerely,

Maryellen H. Haynes
