Subject: Northern Pass

HELLO,

We have been residents of Concord NH for 47 years and i wish to state my displeasure at the possibility of the Northern Pass through our city. I am adamant that the lines be buried! We as a city spend millions to improve our quality of life in Concord and it should not be destroyed/compromised by outside sources. There seems to be very little value to anyone in NH, unless on a temporary basis during construction. This is being forced down NH'S collective throats by those who will profit from it. You don't seriously think anyone trusts the utilities companies, do you? It pains me that our governor seems to be in favor of the Northern Pass. Please, Mr. Governor, represent the people you should be serving and listen to them! NO TO NORTHERN PASS and , to the City of Concord - BURY THE LINES IN CONCORD !!!!

Thanks for listening.

Suzanne Tasker
