Dear Pamela,

Please pass on our support to the Site Evaluation Committee to hold firm re N Pass lines coming through Concord MUST be buried. Overall, we are against this project for all of NH. But, if it is allowed to move forward, we do not want our city impacted by the tall towers as electricity flows to southern New England and beyond to help Eversource and its investors. Let's continue to improve NH and Concord for the residents and visitors through positive improvements, as the Main Street efforts.

Thank you,

Benton (Chick) and Pamela (Pam) Smith
Concord
