Dear Ms. Monroe,

I am an East Concord resident and a avid cyclist. I often ride on Hoyt Road, Sanborn Road, Snow Pond Road, Shaker Road, Oak Hill Road and, well, I think you get the idea. These roads are gems in their rural-ness. Yes, they are already marred by transmission lines but to effectively double the height of the towers would be unignorable.

Concord is fortunate to have a these rural areas; Snow Pond and Turtle Pond are treasures. Please do not let Northern Pass diminish them. Require that the new transmission lines be buried.

Thank you,
Charlie Bristol
