I feel that our state will benefit very little by Northern Pass, and our landscape will be negatively altered now and for generations to come. I used to live in Plymouth, NH, and it breaks my heart when I travel through there now and see the unsightly transmission lines from the wind farm. My great-great-great-great grandfather was one of the original grantees of the Town of Plymouth. I think his heart would also be shattered at how that once beautiful valley has been despoiled.

The only way that I would be in favor of Northern Pass, is if the transmission lines through NH are underground.
