Subject: No to Northern Pass

Dear Site Evaluation Committee,

I am against the Northern Pass project because it will have a negative impact on the environment, wildlife habitats, New Hampshire's economy, and the energy options for those who live in New Hampshire. I am completely against the Northern Pass high voltage electric transmission lines that will bring enormous tower structures across our state.

However, if by some horrible stroke of bad luck and Northern Pass moves forward, I insist that you bury the lines and preserve New Hampshire's natural beauty. The 155 feet high towers and wide rights of way will ruin New Hampshire's scenic appeal and therefore our tourism and economy.

Please stop Northern Pass and find other alternatives that will actually benefit the state of New Hampshire AND its citizens.

Respectfully,

Matthew Schmitz
Concord, NH 03301
