Subject: NP in too deep to cut losses

Dear Pamela, I am writing to you to express my firm opposition to the Northern Pass Project as currently proposed. I believe HQ has way too much money, time and resources invested to ever consider cutting their losses. The last figure that I confirmed was in 2013 at 46 million in unneeded land purchases, I'm confident this number is significantly higher in 2017. They simply can't afford to walk away, they have too much invested and too much future revenue to lose.

Please, I beg that we (NH) demand nothing less than a full burial. Every mile! If NP is not buried it is us, NH residents, that will pay the highest price of all, the loss of our beautiful state with power lines running directly down the middle of it, simply to feed the greed of a foreign country, a greed so big they claim they can't afford to keep our state beautiful and bury their lines.

Please, New Hampshire needs to come first in the decision process.

Sincerely,

Steve Turgeon
