SECDocket	2015-06 Northern Pass Transmission - Eversource
CommenterName	Elena Chevalier
CommenterCity	Benton
DateReceived	08-04-2017

CommenterWords

1. I do not want Northern Pass to come through New Hampshire at all.
2. If it must come, bring it down along the divided highway.
3. Protect the nature of New Hampshire; do not bring it along winding, fragile, narrow, scenic, easily washed-
country roads.
4. Please.

Why?

It will unnecessarily disturb, detract from, damage, or destroy unnecessarily parts of our Wonderful New Hampshire--both people and environment.

We the people of New Hampshire do not need this. Let the lower states develop solar power or some other source of power without messing with our state.

Please.
