Subject: Northern Pass

I live in Coös and work in tourism, I intend to live here where I was born my entire life as I have the past 23 years. Northern Pass will cause me to leave the day a tower is put up and never return. I try to talk to keep up on them but they blocked me and every other Coös on resident on all form of social media. They ARE NOT LISTENING TO NH RESIDENTS. If these towers go up, Nh will be ruined and I know at least 30 people in this 250 person community that will leave the day these towers go up. These guys offer us nothing and silence our voices daily in order to seem like they have approval. THEY ARE THE BAD GUYS. Side with them, I will never work live or come to this state again. Many better options exist.
