### Commenter Words

To Whom It May Concern,

I am writing to express my strong opposition to the Northern Pass project. Over the past 25 years, Coos County has lost much of its industry, and our economy has suffered greatly. The one asset we still have is our natural beauty . To permanently scar the land with hideous towers and electrical wires is the very definition of a Faustian Bargain. Please do not sell out the residents of Northern New Hampshire for 30 pieces of silver. The deal is not worth making.

Sincerely,

John W. Cox
