**Subject:** Nothern Pass Project

Dear Ms. Monroe,

I want you to know that I am, as well as many of my neighbors are, in favor of the Northern Pass Project. You might think from the opponents' campaign that they represent all of us NH citizens. They do not, they are just loud. One of their taking points is 'greed.' I suggest that they might look in the mirror.

We in New Hampshire, New England, as well as the rest of our country need electric power. We are all in this life together and must take the larger view rather than the parochial one. Hydro is a clean source of electricity.

Regards,

Gib
