I oppose Northern Pass,it.must be Blocked.

It is of no use to New Hampshire,it will only benefit Massachusetts and Connecticut,it will bring Environmental and Economical Damage to New Hampshire it will be blight on the on the Landscape especially in the White Mountains with Transmission Lines and Towers passing through our Citys and Towns with land being taken by force,Land Owners being Cheated out of their Lands by Swindlers paying next to nothing for the land by undervaluing the cost of the land.

Northern Pass will hurt not help New Hampshire at all,it must be Stopped and Stopped Now we are not an Extension Cord for Massachusetts and Connecticut where even Hydro-Quebec is Unwilling to Pay for Line in the U.S.,if this goes through
Stop Northern Pass Now!!
