I have been raised in NH all my life, the mountains of NH have been my play area for 50 years. I go into the white mountains to relax, enjoy nature, take in the views of untouched nature and to get away from the relentless chaos of the city grind. I ask you to take into consideration that people need the tranquility of our great wilderness and inspirational views of New Hampshire. Don't, please don't let Northern pass happen.

Sincerely,  
Ralph Cheney (Wetfoot)
