Subject: Comments on Northern Pass
Date: Thursday, August 17, 2017 9:29:42 AM

Hello:

Please consider the whole state of New Hampshire converting over to 100% renewable energy like the city of Hanover, New Hampshire is doing.

I'm not sure if northern pass energy project is renewable energy or not, I would like to see a lot more solar panels instead. Thank you for considering this positive and constructive suggestion.

Thank you;
Donald Leisman
