**Date:** Thursday, August 17, 2017 9:46:21 AM  
**Importance:** High

---

I believe it's going to happen no matter what, so let's propose it be buried and let it run parallel the highways / roadways  
this is the only solution I can see at this time in order to save our existing forests / wetlands / community developments  
please consider this as our only option
