The people of my northern NH community and the state's northern counties are on record for being stridently opposed to the Northern Pass project. It will be catastrophic to the scenic splendor of the landscape that is both our home and the economic driver of our tourist industry. Tourism is by far the most important income stream in our historically impoverished towns. The benefit to us and our economy is nil, all considered, and the scarring of our countryside will be permanent if this project is allowed to be built. It is unconscionable that our livelihood and best interests be sacrificed to the greed and avarice of Northern Pass Transmission.

Thank you.

Laurie Boswell
