I say absolute no to northern pass. It is not good for our state and only promotes greed and profit for those seeking to establish it. It is a shame to even consider such a monstrosity . It will destroy some of the natural beauty of concord and the state and would be hard to reverse. It will cause this to be a very undesirable place to live, an eyesore and many would have to seek a more pleasant place to live. Our home could be unsellable as would many of our neighbors and other neighborhoods. Why would this even be considered? Who would want to promote such a thing? Let's not ruin this beautiful area. Let's take care of our city and state the way we should. Let's take care of our neighbors and do good things for each other.
