---

My name is Christopher Flynn and I live at 18 Jennifer Drive Concord NH. I live the "community" of Turtle Pond Village. I am opposed 1000% to having the northern pass build new towers, taller structures that will destroy the natural beauty of the landscape. If the energy is really needed for the future let those getting the electricity pay for putting it underground. If as proposed ,the new towers , will not only destroy the already tainted view I have of Turtle pond I fear it will lower the current property values significantly. The towers will be higher and bigger.

Please hear my voice.... Sincerely Christopher Flynn
