Re: New Hampshire Site Evaluation Committee ("SEC") Docket No. 2015-06

Northern Pass Transmission Project

Dear Members of the Site Evaluation Committee:

I am writing in opposition to the construction of the Northern Pass Transmission Line across New Hampshire.

I have no Bulleted List or organized thoughts to share. This project will ruin NH's landscape forever and that is just not worth the small amount of revenue that we may see for a short period of time. I grew up and have lived most of my life here. Probably die here in Deerfield too. Anyway, I am opposed to every aspect of this purposed project.

Thanks for your time!

Timothy Jawitz
