Hello Ms. Monroe. This is my comment regarding the NOthern Pass Transmission project. I am totally against this project and want my name added to the list of those in opposition. I own a timeshare in the White Mountains, which I purchased about 5 years ago to escape busy southern NH for a couple times per year. I bought in the WMNF because I want to enjoy the scenery for the years to come with friends and family. I enjoy hiking and all the tourist-y things that we NH residents have taken for granted !! Now, Governor Baker wants more hydro power for MA which of course would run through NH. It's bad enough that Eversource bought off our Governor SuNONO by contributing to his campaign. Don't let the government to our south do the same damage! Thank you.
