Subject: No to Northern Pass

Ms. Monroe -

It is my understanding that the NH SEC is still accepting public comment on Northern Pass.

As a resident of Bristol, I wish to lodge my concerns with you and urge the SEC to deny approval of Northern Pass.

Northern Pass is not clean or green. It will destroy NH's scenic landscapes and habitats. It will result in huge losses to land and home owners in their property values.

Most significantly NH should not carrying the burden of Northern Pass to just move power further south to other states. Clean and less invasive power alternatives must be sought by those states, they should not be using NH for their cheap and dirty solution.

I urge you to vote "NO" to Northern Pass in all forms!

Thank you,

Kristin Paterson
