Dear Ms. Monroe:

I am writing in opposition to the Northern Pass project. It would disrupt community life in our downtown area, a place where people gather for business and leisure. We lost an anchor store in our downtown a few years back, but with the arrival of new restaurants and other businesses, it finally feels like our downtown community is thriving.

More folks can be seen on our main street doing errands or just enjoying the day in the commons area. While parking can be a challenge during peak hours, spaces can still be accessed without too much difficulty. Imagine what would happen if the Northern Pass project comes through our downtown. Parking would be impossible, local businesses would suffer, and our sense of community would be undone.

Please consider the undue hardship this project would pose on our community. Thank you for your time.

Sincerely,
Cecilia Rai
