The project MVRP confirms how many have their own greedy agenda! I have found the trail on money between the police dept and Eversource/National Grid and their subs for the MVRP!!! Who else gets paid from these projects? We deserve better! To have police depts PRIVATELY serving corrupt entities for money is such a betrayal and a huge violation of equal protection!! Everyone check their own cities and towns and see how much police detail revenue is earned off of Eversource BEFORE any of these projects!! Imagine how much will be earned with the Northern Pass!!! Shame on all of them!
