Dear Pamela Monroe,  
I appose this project! PLEASE do not let it pass!  
My favorite fishing spot is directly in the path on the Pemi River and will never be the same if the project is approved.

There is more opposition against this and more lies and untruths being spun to get it done. Dont let this ruin our state on your watch!

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission like also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,  
Barry Alan
