Dear Pamela Monroe,

Please don't allow northern pass. Once the damage to the land, trees, views, wildlife, and more, it's too late to change your mind. Hydro Quebec's track record is not good. Early 90's they didn't care to the north of NH and they don't now. Do your research and you will see.

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission like also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you.

Sincerely,
Elizabeth Dionne
